CERTIFICATE OF INDIRECT COSTS

STATE OF ALASKA
DEPARTMENT OF LABOR AND WORKFORCE DEVELOPMENT
CERTIFICATE OF INDIRECT COSTS

This is to certify that I have reviewed the indirect cost rate proposal submitted herewith and to the best of my knowledge and belief:

- 1) All costs included in this proposal to establish fixed indirect costs rates for FY2017 are allowable in accordance with the requirements of the Federal award(s) to which they apply and OMB Circular 2 CFR 200 Subpart E, "Cost Principles." Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.
- 2) All costs included in this proposal are properly allocable to Federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the agreements to which they are allocated in accordance with the applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently and the Federal government will be notified of any accounting changes that would affect the predetermined rate.

I declare that the foregoing is true and correct.

SECTION IV
COST POLICY

COST POLICY

The State of Alaska maintains a statewide accounting system that identifies all expenditures by department, type of cost and appropriation or funding source. The Alaska State Accounting System (AKSAS) was replaced by the Integrated Resource Information System (IRIS) effective July 1, 2015. Within IRIS, the department maintains a cost accounting system that identifies costs by division, component, program and funding source. Costs recorded in IRIS are identified by appropriation and major program/program structures. The state's fiscal year is July 1st through June 30th. The state utilizes a modified accrual basis for accounting and financial statements. Financial statements and reporting are extracted from AKSAS for FY2015 and from IRIS for FY2017 through a statewide reporting system (ALDER). ALDER is a data warehouse system and integrated reporting platform for financial and payroll activity.

Accounting Policies

The department incurs and records costs in accordance with State of Alaska fiscal policies and procedures. State policies and procedures have been developed in accordance with generally accepted accounting principles (GAAP) as recognized by the Governmental Accounting Standards Board (GASB). Department procedures and controls are routinely reviewed for compliance with applicable state and federal accounting policies and procedures by the State of Alaska, Division of Legislative Audit and by federal program auditors. The Comprehensive Annual Financial Report and the Single Audit for the State of Alaska are audited by the Division of Legislative Audit.

Due to the funding of department programs by both state and federal funding sources, two sets of principles are incorporated into the department's policies and procedures related to the assignment of costs to funding sources. Principles related to all funding sources are incorporated within GAAP as recognized by GASB. In addition, principles and procedures which have been followed for the adjustment of costs to federal awards are presented in U.S. Office of Management and Budget (OMB) Circular 2 CFR 200 Subpart E, "Cost Principles."

Generally Accepted Accounting Principles

There are three basic concepts incorporated within GAAP that are followed. First, costs are necessary and reasonable for proper performance of a program. Second, costs are charged or allocated to programs in accordance with relative benefits received. A program is only charged for services it utilizes or benefits from and is only charged in relation to benefits derived from the service. Third, costs are accorded consistent treatment as either direct or indirect. A cost is not charged to a program as a direct cost if any other costs incurred for the same purpose in like circumstances have been allocated to a program as indirect costs.

OMB Circular 2 CFR 200 Subpart E

In recognition of OMB Circular 2 CFR 200 Subpart E requirements, department costs are determined and charged to federal awards in accordance with the following general criteria:

- Costs are necessary and reasonable for proper and efficient performance and administration of federal awards;
- Costs are allocable to federal awards under the provisions of the circular - costs have been allocated to a particular cost objective only if the goods or services involved are chargeable or assignable to such cost objective in accordance with relative benefits received;
- Costs are authorized or not prohibited under state or local laws or regulations;
- Costs conform to any limitations or exclusions set forth in the circular principles, federal laws, terms and conditions of the federal award, or other governing regulations as to types or amounts of cost items;
- Costs are accorded consistent treatment - a cost has not been assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the federal award as an indirect cost;
- Except as otherwise provided for in the circular, costs have been determined in accordance with generally accepted accounting principles;
- Costs have not been included as a cost or used to meet cost sharing or matching requirements of any other federal award in either the current or a prior period, except as specifically provided by federal law or regulation;
- Costs are net of all applicable credits;
- Costs are adequately documented.

Types of Costs

The department, in the performance of its duties and responsibilities, incurs both direct and indirect costs. Direct costs are costs that can be specifically or readily identified with a specific cost objective or program. Indirect costs are costs necessary for the effective, efficient operation of programs that cannot be readily identified to a specific cost objective or program without effort disproportionate to results achieved. Three methods are used to assign costs: direct cost assignment, cost allocation and application of indirect cost rates.

Direct Cost Assignment

The majority of the department's costs are costs that are specifically or readily identifiable with a specific cost objective or program. All direct costs are supported by auditable documentation.

- Salaries and wages are charged directly to appropriate programs based on state policies and procedures and applicable OMB Circular 2 CFR 200 Subpart E requirements for the documentation of personnel services.

- Fringe Benefits are identified specifically to each employee and are assigned to programs in the same ratio as an employee's salary. Fringe benefits include:
 - Health, dental and life insurance
 - Federal and state unemployment insurance
 - Public Employee Retirement Plan
 - Alaska Supplemental Benefits - in lieu of Social Security benefits
 - Legal Trust Plan
 - Workers' Compensation
 - Terminal leave (a reserve account used to pay terminating employees the unused balance of their leave account)
 - Leave cash-in (a reserve account used to pay employees when they cash in leave in lieu of taking time off)

- Other - all other direct costs are supported by vendor invoices, contracts, reimbursable service agreements and other appropriate documentation.

Cost Allocation

The department allocates costs benefiting more than one program that cannot be readily identified with a specific cost objective or program. Costs are allocated as they occur on appropriate allocation bases. Costs allocated to central administrative and support units and division administrative units are included in the development of indirect cost rates. Examples of allocated costs are leave costs of personnel charged to multiple funding sources, leased space, communications, photocopying, equipment maintenance agreements, risk management insurance, and office supplies. Section X, Allocated Costs, of the proposal provides information on allocated costs and the bases utilized to allocate costs.

Indirect Cost Rate

The department utilizes indirect cost rates prepared in accordance with OMB Circular 2 CFR 200 Subpart E, Appendix VII to recover some statewide costs, the costs of department-wide central administrative support services, and division administrative support costs for the Vocational Rehabilitation and Employment and Training Services divisions. Section VI, Classification of Costs, provides information on costs that are included in these indirect cost rates.

The department-wide fixed indirect cost rate includes OMB Circular 2 CFR 200 Subpart E allowable costs of the Office of the Commissioner, Administrative Services Division, Alaska Vocational Technical Education Center and other administrative support costs benefiting all

divisions, programs and funding sources of the department. Section VII, FY2017 Department-Wide Fixed Indirect Cost Rate, provides the rate proposed for FY2017.

The Vocational Rehabilitation Division's fixed indirect cost rate includes division administrative support costs that benefit all programs administered by the Vocational Rehabilitation Division. Section VIII, FY2017 Vocational Rehabilitation Division Fixed Indirect Cost Rate, provides the rate proposed for FY2017.

The Employment and Training Services Division's fixed indirect cost rate includes division administrative support costs that benefit all programs administered by the Employment and Training Services Division. Section IX, FY2017 Employment and Training Services Division Fixed Indirect Cost Rate, provides the rate proposed for FY2017.

This concludes the section of the proposal on the department's Cost Policy.

SECTION VI
CLASSIFICATION OF COSTS

CLASSIFICATION OF COSTS

For the development of indirect cost rates, the department classifies costs as either direct costs, department-wide indirect costs, or division indirect costs. Direct costs are costs that can be specifically or readily identified with a specific cost objective or program. Department-wide indirect costs are costs necessary for the effective, efficient operation of all department programs that cannot be readily identified to a specific cost objective or program without effort disproportionate to results achieved. Division indirect costs are administrative and support costs of a division that benefit all programs administered by a division that cannot be readily identified to a specific cost objective or program without effort disproportionate to results achieved.

This section includes schedules that support the classification of all department costs. All schedules reconcile to the schedules provided in Section V, Financial Information. A brief description of each schedule is provided in the following text.

Schedule VI-A: Classification of FY2015 Total Actual Costs

Schedule VI-A provides the classification of the department's total actual costs for FY2015. The schedule reconciles to Schedule V-A, Actual Department Expenditures for the Fiscal Year Ended June 30, 2015, in Section V of the proposal. The schedule also identifies additional non-department financial statement costs that have been incurred on behalf of department programs. Schedule information is utilized in the determination of the FY2015 carry-forward adjustments, which are included in the development of FY2017 fixed indirect cost rates. The schedule is formatted as follows:

- Organization Unit - brief title of divisions and components comprising each division;
- Support Schedule - provides a reference to the support schedule that will provide detail information on costs that have been classified as department-wide or division indirect costs;
- Total Costs - total costs of the department that reconciles to Schedule V-A in Section V of the proposal;
- Direct Costs - costs specifically or readily identifiable with a specific program;
- Department-Wide Indirect Costs - indirect costs benefiting all programs of the department;
- Division Indirect Costs - indirect costs benefiting all programs of a division;
- Total Indirect Costs - total costs classified as indirect costs.

Support Schedules for Schedule VI-A

The support schedules provide detail information for each component that has FY2015 actual costs that have been classified as indirect. These schedules are formatted as follows:

- Description - brief description of cost category;
- Total Costs - total component costs that reconciles to Schedule V-A and VI-A;
- Direct Costs - costs that benefit a specific program, do not benefit all programs and/or are OMB Circular 2 CFR 200 Subpart E unallowable as indirect costs;
- Indirect Costs - costs that have been classified as either department-wide or division indirect costs.

Schedule VI A-1: Commissioner's Office

SECTION VII

FY2017 DEPARTMENT-WIDE FIXED INDIRECT COST RATE

FY2017 DEPARTMENT-WIDE FIXED INDIRECT COST RATE

The department utilizes the OMB Circular 2 CFR 200 Subpart E, Appendix VII simplified method for the development of a single fixed indirect cost rate applicable to all divisions and programs of the department. The rate is determined by dividing the department's total budgeted FY2017 OMB Circular 2 CFR 200 Subpart E allowable indirect cost and FY2015 carry-forward by the department's FY2017 total budgeted direct personal services costs. The rate is calculated by indirect cost source and in total.

Personal Services costs include salaries and wages and associated fringe benefits. Direct personal services costs are the total personal services costs of the department less the personal services of positions classified as indirect. Section VI-D, Classification of FY2017 Budgeted Personal Services Costs, provides the support for the classification of personal services as either direct or indirect.

- ❑ Fringe Benefits are identified specifically to each employee and are assigned to components in the same ratio as an employee's salary. Fringe benefits include:
 - Health, dental and life insurance
 - Federal and state unemployment insurance
 - Public Employee Retirement Plan
 - Alaska Supplemental Benefits - in lieu of Social Security benefits
 - Legal Trust Plan
 - Workers' Compensation
 - Terminal leave (a reserve account used to pay terminating employees the unused balance of their leave account)
 - Leave cash-in (a reserve account used to pay employees when they cash in leave in lieu of taking time off)

This section includes schedules that support the calculation of the FY2017 department-wide fixed indirect cost rate. A brief description of each schedule is provided in the following text.

Schedule VII-A: Department-Wide FY2017 Fixed Indirect Cost Rate

Schedule VII-A provides the calculation of the department-wide FY2017 fixed indirect cost rate applicable to all divisions and programs of the department. The schedule provides a summary of FY2017 budgeted indirect costs, the FY2015 carry-forward and FY2017 budgeted direct personal services. Rate calculations are provided by indirect cost source and in total.

Indirect costs included in the department-wide fixed indirect cost rate are OMB Circular 2 CFR 200 Subpart E allowable costs that benefit all divisions and programs of the department. Section VI, Classification of Costs, includes schedules that reconcile costs included in the rate and provides detail information on indirect services and costs. Costs have been identified as either department or statewide. Department costs are costs incurred by the department. Statewide costs are costs incurred by other state agencies in support of all department programs.

Schedule VII-B: FY2015 Indirect Cost Rate Carry-Forward

The department utilized a fixed indirect cost rate in FY2015. OMB Circular 2 CFR 200 Subpart E requires that entities utilizing a fixed indirect cost rate determine the difference between the estimated rate, based on budgeted costs and the actual rate for the period based on actual costs. The difference between the rates is to be carried forward as an adjustment to the rate computation of a subsequent period.

Schedule VII-B provides the calculation of the FY2015 indirect cost rate carry-forward. The carry-forward is the difference between potential indirect cost recoveries utilizing the department's fixed FY2015 indirect cost rate based on budgeted costs and the actual or final rate for FY2015 based on actual costs. Carry-forwards are provided by indirect cost source and in total. The carry-forward is included on Schedule VII-A.

This concludes the narrative on this section of the proposal. The schedules are provided on the following pages.

FY2017 VOCATIONAL REHABILITATION DIVISION FIXED INDIRECT COST RATE

The department utilizes the OMB Circular 2 CFR 200 Subpart E, Appendix VII simplified method for the development of a fixed indirect cost rate allocable to all programs administered by the Vocational Rehabilitation Division. The rate consists of a division administrative rate and the department-wide rate. The division rate is determined by dividing the division's total budgeted FY2017 OMB Circular 2 CFR 200 Subpart E allowable administrative indirect costs and FY2015 carry-forward by the division's total budgeted FY2017 direct personal services costs. The department-wide rate is the rate developed in Section VII, FY2017 Department-Wide Fixed Indirect Cost Rate, of the proposal.

Personal Services costs include salaries and wages and associated fringe benefits. Direct personal services costs are the total personal services costs of the division less the personal services of positions classified as indirect. Section VI-D, Classification of FY2017 Budgeted Personal Services Costs, provides the support for the classification of division personal services as either direct or indirect.

Schedule VIII-B: FY2015 Vocational Rehabilitation Division Indirect Cost Rate Carry-Forward

The Vocational Rehabilitation Division utilized a fixed indirect cost rate in FY2015. OMB Circular 2 CFR 200 Subpart E requires that entities utilizing a fixed rate determine the difference between the estimated rate, based on budgeted costs and the actual rate for the period based on actual costs. The difference between the rates is to be carried forward as an adjustment to the rate computation of a subsequent period.

Schedule VIII-B provides the calculation of the division's FY2015 indirect cost rate carry-forward. FY2017 EMPLOYMENT AND TRAINING SERVICES DIVISION FIXED INDIRECT COST RATE

The department utilizes the OMB Circular 2 CFR 200 Subpart E, Appendix VII simplified method for the development of a fixed indirect cost rate allocable to all programs administered by the Employment and Training Services Division. The rate consists of a division administrative rate and the department-wide rate. The division rate is determined by dividing the division's total budgeted FY2017 OMB Circular 2 CFR 200 Subpart E allowable administrative indirect costs and FY2015 carry-forward by the division's total budgeted FY2017 direct personal services costs. The department-wide rate is the rate developed in Section VII, FY2017 Department-Wide Fixed Indirect Cost Rate, of the proposal.

Personal Services costs include salaries and wages and associated fringe benefits. Direct personal services costs are the total personal services costs of the division less the personal services of positions classified as indirect. Section VI-D, Classification of FY2017 Budgeted Personal Services Costs, provides the support for the classification of division personal services as either direct or indirect.

- ❑ Fringe Benefits are identified specifically to each employee and are assigned to components in the same ratio as an employee's salary. Fringe benefits include:

This section includes schedules that support the calculation of the FY2017 Employment and Training Services Division fixed indirect cost rate. A brief description of each schedule is provided in the following text.

Schedule IX-A: FY2017 Employment and Training Services Division Fixed Indirect Cost Rate

Schedule VIII-A provides the calculation of the Employment and Training Services Division's FY2017 fixed indirect cost rate applicable to all programs of the division. The schedule provides a summary of FY2017 budgeted indirect costs, the FY2015 carry-forward and FY2017 budgeted direct personal services. Rate calculations are provided that include only division costs. The schedule also includes the department-wide rate.

Division administrative costs that have been classified as indirect costs are OMB Circular 2 CFR 200 Subpart E allowable costs that benefit all programs administered by the division. Section VI, Classification of Costs, includes schedules that reconcile costs included in the rate and provide detail information on indirect services and costs.

Schedule IX-B: FY2015 Employment and Training Services Division Indirect Cost Rate Carry-Forward

There was no Employment and Training Services Division in FY2015 and no FY2015 Employment and Training Services Division Indirect Cost Rate. Therefore, there is not carry-forward to be calculated and included on Schedule IX-A

ALLOCATED COSTS

The department allocates costs benefiting more than one program that cannot be readily identified with a specific program. Costs are allocated as they occur based on appropriate allocation bases. Costs allocated to central administrative and support units and division administrative units are included in the development of indirect cost rates. Any allocable cost that cannot be charged to the federal program (because of funding allowability or exhaustion of funds) will be allocated to a state funded appropriation to ensure federal funding is only allocated an equitable share of costs.

Brief descriptions of the types of allocated costs and bases utilized to allocate costs are provided in the following text.

Employee Leave

Costs of leave for organization units with employees that charge to multiple funding sources are pooled and allocated monthly to benefiting programs. A cost pool is established for each organization unit. The basis for allocating each unit's leave costs is the year-to-date (YTD) direct personal services costs of benefiting programs.

Management and Administration

In some cases, personal services (salaries, leave and benefits) of division management and administrative staff benefiting multiple programs are pooled by unit and allocated monthly to benefiting programs. A cost pool is established for each unit and only allocated to benefiting programs of the unit. The basis for allocating each unit is the YTD personal services costs of benefiting programs in the unit.

Support Services and Supplies

Services and supplies that are purchased in support of multiple programs are pooled by unit and allocated monthly to benefiting programs. Examples of support services and supplies that may be allocated include paper, office supplies, books, subscriptions, membership dues, copying, communications and training. The basis for allocating each unit is the YTD personal services costs of benefiting programs.

Alaska Workforce Investment Board

Costs for the Alaska Workforce Investment Board (AWIB) include personal services, board travel, services, and supplies required for oversight functions and staff support of the board. The basis for allocating costs in this pool is the prior year proportionate share of actual total program costs of each of the training programs covered by the AWIB oversight function.

Data Processing

The department's Data Processing section has multiple teams whose time is accounted for in a variety of ways. Teams are identified by title and function to more easily track them organizationally and in terms of how their costs are charged. Appendix A page 8 provides an organization chart reflecting these teams. These teams have been color coded as noted:

- Yellow - management of the section
- Blue - network services (desktop and connectivity support)
- Purple - network services for job centers only
- White - programming
- Grey - systems and security, research, project development and training
- Green - database, job scheduling and other programming support
- Orange – security administrator
- Brown – direct support to Disability Determination Services component

The single “yellow” position provides the overall management of the section. The single “orange” team position oversees all facets of data and system security for the department and ensures the secure operation of the in-house computer systems, servers, and network connections. The “blue” network services positions provide desktop, server and software support to all positions in the department. This includes the Unemployment Insurance (UI) call centers and the job centers throughout the state but excludes AVTEC since they provide their own DP network support. Each position in this group charges their time that is specifically for either a UI call center or a job center to those funding sources, with all other time that is not distinct to one of those two functions going to DP Operations (DP OPs). The “yellow,” “orange” and “blue” DP OPs costs are collected and allocated to all components of the department based on position count.

The “purple” position charges only Wagner-Peyser since that position is dedicated to supporting the network services needs of job centers throughout the state.

The “white” programming team works on projects for maintenance or enhancement of specific systems and therefore directly charges its time to the programs supported by the specific systems. The majority of the support does go to mainframe or web based applications that are paid from either UI Administration or Wagner-Peyser funding, but these also include other mainframe and desktop applications paid from other funding sources.

The “grey” systems security team provides planning, research, security, training, and other similar support to the programmers. These costs are pooled and allocated to the projects and

systems worked on by the “white” team programmers based on their collective YTD personal services.

The “green” team provides database support and schedules jobs that are run on the mainframe. They support either UI or Wagner-Peyser since those are the only jobs run on the mainframe. It would be impractical to charge their time to either Wagner-Peyser or UI Administration as the activities performed benefit jobs paid by both grants. The department is billed for mainframe usage based on units used which are identified to specific jobs, nearly all of which are paid by either UI or Wagner-Peyser. Therefore, these positions are allocated based on the Measure of Incremental Service (MICS) charging between Wagner-Peyser and UI jobs for the last full fiscal year. In FY2015, the MICS for UI was \$918,641; and for Wagner-Peyser it was \$100; for a total of \$918,741. Therefore in FY2017 these positions are charged 99.99 percent to UI and .01 percent to Wagner-Peyser.

The single “brown” team position provides direct computer support to and is funded by the Disability Determination Services (DDS) component. DDS funds expenditures including salary, benefits, allocations, indirect, and travel to meetings or training incurred for DDS specific systems.

Non-personal services charges are pooled for the section and, like the leave, are charged based on relative share of YTD personal services for each team.

Labor Standards and Safety, Occupational Safety and Health (OSH)

OSH is comprised of two programs which are state program enforcement and consultation. Both programs are partially funded by federal grants, 23G and 21D, respectively. The 23G grant provides 50 percent federal funds and 50 percent state match, and the 21D grant provides 90 percent federal funds and 10 percent state match. Personal services costs of staff benefiting these programs are comprised of three sets of employees: direct program staff and program managers, division management staff, and clerical support staff.

OSH direct program staff and managers comprise of enforcement staff that must charge 23G, and consultation staff that must charge 23G for public site consultations or 21D for private site consultations. Consultation staff time is charged as a relative percentage of public to private consultation visits based on the annual Alaska OSH Evaluation Report. Management staff costs are pooled and distributed based on YTD personal services of the direct program staff, but coded to the administration category under the grant. Clerical support staff direct charge the program when supporting program staff and otherwise charge administration. Clerical pooled program and administrative costs are allocated based on YTD personal services of the program and management staff.

Statewide Cost Allocation Plan (SWCAP) – Core Services

Costs in the SWCAP (Appendix F) are common to all state agencies and are detailed and approved annually by the US Department of Health and Human Services (USDHHS) and are listed in Section I and II on the SWCAP Cost Allocation Agreement.

SWCAP Section I – Allocated Costs

Some costs, as detailed in Section I, are in the SWCAP but are not billed to agencies. The department share of those costs is included in the indirect cost pool as a statewide cost.

SWCAP Section II – Billed Costs

Costs as detailed in Section II, are billed costs on the SWCAP agreement. Each cost is allocated to all departments, based on the approval of the SWCAP and they are then further allocated or direct charged within the department in the same way unless otherwise noted for that item. In many cases, after these costs are allocated to the component, they are further allocated through that component's Management and Administration allocation, which is based on relative share of YTD personal services costs.

Facility Leases

For most leases, the cost of leased office and storage space is paid to the lessors by the Department of Administration (DOA). DOA, in turn, bills the agency occupying the space. In addition, a lease administration fee is charged by DOA based on a combination of relative share of leases in total and relative share of dollar value of said leases. The department, in turn, combines the total billed to the department for the lease with the lease admin for each lease and allocates the result to the occupying division or section.

Some of the department's lease costs are for public facilities owned by another state agency. In those cases, the owning agency (most often DOA, the Department of Transportation & Public Facilities, or the Court System) bills the department for the cost of maintenance, etc. as described and approved through the SWCAP.

For those leases or lease costs for space benefiting multiple programs, the department first tries to allocate the charges to that component's programs by relative share of space occupied; in some cases, when it is not practical to allocate the charges based on relative share of space occupied at the program level, the charges are either distributed through the division's Management and Administration allocation or by position counts.

DOA Central Mail Services

DOA processes mail for all departments of state government. Their services cover incoming mail being sorted and distributed to agencies, as well as printing, mailing and processing of warrants (UI, payroll and general warrants) and other outgoing mail. They collect their costs in various

pools such as personnel, equipment, warrant stock, envelopes, postage, etc., by each of these four categories: general mail, AKSAS/IRIS warrants (accounting, payments to vendors and contractors), AKPAY warrants (payments to employees) and UI (warrants and information mail-outs). They also collect their costs for other items for which the department does not benefit and is not charged, those are not described here.

The department is billed for AKSAS/IRIS and AKPAY warrant processing based on warrant count, but the department reallocates those costs within the department based on relative share of positions since there is not a way of determining warrants used by funding source.

The department is billed for general mail handling based on a combination of items, with the largest single component of the charge being postage. The postage is metered based on the mail being handled and is charged to the program benefiting by that mail. Thus, the department charges this piece of the bill to the benefiting programs based on relative share of postage charges.

The department is billed for UI warrant and information mail-outs handling based on the time spent under the approved SWCAP agreement, and those charges are direct charged to UI Administration.

DOA Division of Finance - AKPAY/AKSAS /IRIS/ALDER

DOA charges all departments for their share of the cost of running the accounting (AKSAS/IRIS) and payroll (AKPAY) systems and the other centralized services and assistance they provide. Each department is charged their share based on relative share of position counts.

DOA Division of Personnel - Human Resource Services

DOA provides oversight of some personnel services including timesheet processing, employee pay issues, labor relations, and other related services. Each agency is billed for their share based on relative share of positions.

DOA Enterprise Technology Services - Enterprise Productivity Rates (EPR)

DOA bills agencies for their share of telephone (TC EPR) and computer (CS EPR) infrastructure costs based on relative share of positions. These costs are described in the SWCAP and are for things such as network services for transmission of voice and data between state offices, repair and maintenance and other support of radio and telephone equipment, data processing (DP) storage, DP printing, DP programming and the general infrastructure of the state's computer system of which all agencies are a part.

DOA ETS - Measure of Incremental Service (MICS)

DOA bills agencies for their use of computer resources based on the ID used when signing on to the system. Some programs use very little of these resources and their share of the bill is very

small, so those small costs are charged to the indirect cost pool. The combined total of the charges that result from staff in the indirect cost pool and the small charges that would otherwise go elsewhere are significantly less than \$5,000 per year.

DOA ETS - Anti-Virus Software and Microsoft Enterprise Agreement

DOA bills each agency for the state's anti-virus software and for the Microsoft Enterprise Platform based on a physical inventory.

DOA ETS - Automated Budget System (ABS)

DOA charges agencies for their share of the cost of running the automated budget system based on the number of ABS users within each department.

DOA ETS - Telecommunications PBX

DOA provides each department with telecommunication devices and services between most state offices. The department is billed for the phone service incurred by each device owned by the department.

DOA Division of Risk Management - Insurance

The Division of Risk Management bills agencies for their share of property, liability, and public official bond insurance that they hold for all State agencies as well as their costs of providing that service. The overhead and public official bond charges are allocated within the department based on relative share of position count. The charges for property insurance are allocated to the components occupying the property.

Department of Law - Legal Services

The Department of Law bills agencies for the legal services provided based on actual hours spent and the department direct charges these to the benefiting program that used those services.

Division of Legislative Audit - Audit Services

The Legislative Auditor and staff conduct the post-audit function in the budget cycle in accordance with federal OMB Circular 2 CFR 200 Subpart F Audit Requirements, the Constitution of the State of Alaska, and Title 24 of the Alaska Statutes. All audits performed by the division are external audits; that is, they are performed by an auditor who is independent of the executive head of the government unit or agency being audited. The three major types of audits performed are financial compliance (aka Statewide Audit), performance and special audits. The department is charged for some of the cost of these audits, but some costs are not billed to agencies except in a "memo" to identify those amounts that were not billed. The charges are based on hours spent. Performance and special audits are program specific so the department direct charges the amounts for those audits to the benefiting program. The department allocates

the amount charged for the statewide audit based on position count. The “memo” billing for the statewide audit that represents charges that were incurred but not billed, are included in the indirect cost pool as a statewide cost.

Department of Administration (DOA) - Americans with Disabilities Act (ADA)

DOA provides the statewide ADA coordination for all state agencies. DOA bills the state agencies for their share of services based on relative share of positions. The department allocates its share of the cost within the department in the same way.

This concludes the section of the proposal on allocated costs.

The Honorable Bill Walker, Governor
Members of the Legislature
Citizens of the State of Alaska

In accordance with Alaska Statute (AS) 37.05.210, it is our pleasure to present the Comprehensive Annual Financial Report (CAFR) of the State of Alaska for the fiscal year ending June 30, 2015. This report has been prepared by the Department of Administration, Division of Finance. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the State. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and reported in a manner designed to present fairly the financial position and results of operations of the State. Statistical and demographic information are included to enable the reader to gain an understanding of the State's financial activities.

INTRODUCTION

Internal Controls

The Department of Administration, Division of Finance, is primarily responsible for the overall operation of the State's central accounting system. The State's system of internal controls over the accounting system has been designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the evaluation of costs and benefits requires estimates and judgments by management.

Some component units operate outside the State's central accounting system. Those component units are responsible for establishing and maintaining their own separate internal control structures.

Audits

The Division of Legislative Audit is the principal auditor of the State's reporting entity. The audit of the CAFR was conducted in accordance with generally accepted auditing standards (GAAS). The independent auditor's report is the first item in the financial section of the CAFR and precedes the Management Discussion and Analysis (MD&A) and basic financial statements. The goal of the independent audit is to provide reasonable assurance that the financial statements of the State for the fiscal year ended June 30, 2015, are free of material misstatement. The audit involved examining, on a

test basis, evidence supporting the amounts and disclosures in the CAFR, assessing the accounting principles used, and evaluating the overall financial statement presentation.

In addition to the annual audit of the State's CAFR, the State is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget's Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Information related to this single audit, including a schedule of expenditures of federal awards, the auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs will be published at a later date under separate cover by the Division of Legislative Audit.

Management's Discussion and Analysis

Governmental Accounting Standards Board Statement No. 34 requires that management provide a narrative introduction, overview, and analysis of the State's financial activities. This transmittal letter is intended to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the independent auditor's report.

PROFILE OF THE STATE OF ALASKA

The State of Alaska was the 49th state admitted into the Union in 1959. The Alaska Constitution was adopted by the Constitutional Convention February 5, 1956, ratified by the people of Alaska April 24, 1956, and became operative with the formal proclamation of statehood January 3, 1959.

There are three branches of government: legislative, executive, and judicial. The legislative power of the State is vested in a legislature consisting of a Senate with a membership of 20 and a House of Representatives with a membership of 40. The executive power of the State is vested in the governor. The judicial power of the State is vested in a supreme court, a superior court, and the courts established by the legislature. The jurisdiction of courts and judicial districts are prescribed by law. The courts constitute a unified judicial system for operation and administration.

The State of Alaska reporting entity reflected in this CAFR, which is described more fully in Note 1 to the basic financial statements, conforms with the requirements of Governmental Accounting Standards Board Statement No. 14, *The Financial Reporting Entity*. These criteria include financial accountability, fiscal dependency, and legal standing. The concept underlying the definition of the financial reporting entity is that elected officials are accountable to their constituents. The financial statements should allow users to distinguish between the primary government (the State) and its component units, with the emphasis being on the primary government. Consequently, this transmittal letter, the MD&A, and the financial statements focus on the State and its activities. Although information pertaining to the discretely presented component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

The State provides a range of services including education, health and human services, transportation, law enforcement, judicial, public safety, community and economic development, public improvements, and general administrative services.

To: Rachel Paguio, Accountant V
Division of Administrative Services

Date: September 11, 2015
Telephone: 465-3830

From: Kris Curtis *KC*
Legislative Auditor

Subject: Memorandum Billing for
FY 15 Single Audit
Services

The purpose of this memorandum is to provide each agency a breakdown of the costs of Single Audit services provided by the Division of Legislative Audit to that department. This breakdown will allow each agency to maximize federal or other funding participation for these costs. Audit costs are not included in the statewide cost allocation plan; therefore, it is up to each agency to direct bill these costs to their programs or elect to incorporate them into the department's indirect cost plan. No additional payments to the Division of Legislative Audit are required.

Analysis of Department of Labor and Workforce Development Single Audit costs are as follows:

Audit Project	Previously Billed	Informational Billing (Memo)	Total Audit Costs FY 15
Statewide Single Audit - FY 14	\$ 35,439.00	\$ 287,939.00	\$ 323,378.00
Statewide Single Audit - FY 15	0.00	64,034.00	64,034.00
Total Audit Costs	\$ 35,439.00	\$ 351,973.00	\$ 387,412.00

Previously, under *OMB Circular A-87*, Single Audit and Other Audit costs were allowable.

In FY 15, OMB Uniform Guidance superseded *OMB Circular A-87*. Title 2 CFR 200.425, states that a reasonably proportionate share of the costs of audits required by, and performed in accordance with, the Single Audit Act Amendments of 1996 (31 U.S.C. 7501-7507) are allowable.

The amounts identified as memo billings are audit costs that the departments may seek additional reimbursement as discussed above. These additional FY 15 audit costs must be treated in the same manner as the previously billed audit costs to ensure consistent treatment.

A direct billing approach will require additional information to ensure a proper allocation of costs to all programs that benefit from these services.

Please contact Mark Lundahl (465-3830) for the additional information.

Memorandum

To: Administrative Service Directors

From: Scot Archart *SA*
Director

Date: September 9, 2015

Subject: **Fiscal Year 2015 Memo Billing for AKSAS, AKPAY, and ALDER Administrative Systems**

This memo informs you of the amount of AKSAS (financial), AKPAY (payroll), and ALDER (data warehouse) chargeback not billed, but allowable and allocable to your department under the fiscal year 2015 Statewide Cost Allocation Plan (SWCAP), which was approved by our federal cost negotiators at the U.S. Department of Health and Human Services. ***You do not have to pay this unbilled amount.***

The amount is being provided to you in "memo billing" form for your department to maximize federal or other funding participation in these allowable costs. Depending on your departmental cost allocation plan, these memo billing expenditures may be used as either direct or indirect costs. The allocation basis approved by the federal cost negotiator in Section II of the FY 2015 SWCAP for these costs was transaction count for AKSAS and position count for AKPAY and active users for ALDER.

For federal or other funding participation, these memo billing expenditures are essentially the same as the AKSAS, AKPAY, and ALDER chargeback you actually paid. They are allowable costs that can be allocated across your funding sources. They may be billed, or used as match, or used to replace expenditures that are disallowed by the federal government as a result of the audit process. One caveat of OMB Circular A-87 is that like costs receive like treatment, so the memo billing expenditures must be charged in the same method as the AKSAS, AKPAY, and ALDER chargeback you paid for fiscal year 2015.

The following table shows the amount of AKSAS, AKPAY, and ALDER chargeback allocable, previously billed, and the memo billing amount for each agency in fiscal year 2015. This is the second year that amortization of ALDER development costs are included in the approved SWCAP and will continue through fiscal year 2021.

SECTION I
INTRODUCTION

INTRODUCTION

The State-wide Cost Allocation Plan (SWCAP) for indirect services provided by central services agencies of the State of Alaska for fiscal year 2015 is based on actual data incurred during the fiscal year ended June 30, 2013 (FY 2013). The Plan was prepared by MAXIMUS, Inc. at the request of the Department of Administration, State of Alaska.

The U.S. Office of Management and Budget issued OMB Circular A-87 (2 CFR Part 225), which defines allowable expenditures for Federal grants. The Circular establishes procedures for recovering both direct and indirect costs of programs. The Circular requires that a state wishing to claim indirect costs as charges against Federal grants, prepare an annual SWCAP and submit the Plan for approval to a designated Federal department for review and approval.

This SWCAP, based on actual data incurred during the fiscal year ended June 30, 2013, should be fixed and used on all indirect cost proposals for Federal programs during the State's fiscal year ending June 30, 2015 (FY 2015).

The SWCAP is formatted as follows:

- Certificate of Cost Allocation Plan** - a certification by an authorized official that the SWCAP has been prepared in accordance with applicable policies and procedures of OMB Circular A-87 (2 CFR Part 225).
- Organization Chart** - a current State of Alaska organization chart.
- Cost Allocation Agreement** – agreement signed by federal cognizant agency (DHSS) and the State of Alaska.
- FY 2015 Fixed Costs** - schedule which summarizes fixed costs for each State agency.**Cost Allocation Plan** - detailed analysis and allocation of central services agencies based on FY 2013 data.

**STATE OF ALASKA
STATEWIDE COST ALLOCATION PLAN
CERTIFICATE OF COST ALLOCATION PLAN**

This is to certify that I have reviewed the cost allocation plan submitted herewith and to the best of my knowledge and belief:

- (1) All costs included in the FY 2015 Statewide Cost Allocation Plan to establish cost allocations or billings for the fiscal year beginning July 1, 2014 and ending June 30, 2015 are allowable in accordance with the requirements of OMB Circular A-87 (2 CFR Part 225), "*Cost Principles for State and Local Governments*," and the Federal award(s) to which they apply. Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.
- (2) All costs included in this proposal are properly allocable to Federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the awards to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently.

I declare that the foregoing is true and correct.

FUNCTIONS OF STATE DEPARTMENTS

OFFICE OF THE GOVERNOR

The Governor is the Chief Executive of the State. The Office of the Governor has the overall responsibility for coordinating the activities of state agencies to ensure that all programs are consistent with the governor's policy and objectives.

ADMINISTRATION

The Department of Administration centralizes services to provide more efficient, cost-effective support to state agencies and Alaskans. Services to state agencies include: Labor Relations and Personnel, Finance (payroll, accounting, and disbursements), General Services (purchasing, surplus property, mail, managing public buildings, and leases), Risk Management, Enterprise Technology Services (telecommunications and computer services), and Retirement and Benefits (public employers, public employees and retirees).

The department also provides services to the public through the: Division of Motor Vehicles, Division of Retirement and Benefits, Office of Public Advocacy, Public Defender Agency, Alaska Public Offices Commission, Alaska Oil and Gas Conservation Commission, Alaska Public Broadcasting Commission, Office of Administrative Hearings, and Violent Crimes Compensation Board.

COMMERCE, COMMUNITY AND ECONOMIC DEVELOPMENT

The Department of Commerce, Community, and Economic Development promotes economic development, strengthens communities and provides consumer protection. To accomplish these, the department implements programs for sustainable business growth and reduced energy cost, regulates and enforces to provide a stable business climate, and provides technical and financial assistance and volunteerism outreach opportunities for communities.

The department consists of core agencies including: Division of Banking and Securities, Division of Corporations, Professional and Business Licensing, Division of Community and Regional Affairs, Division of Insurance, and the Division of Economic Development. Various corporate agencies are also part of the department, including: Alaska Industrial Development and Export Authority, Alaska Energy Authority, Alaska Railroad Corporation, Alaska Seafood Marketing Institute, Regulatory Commission of Alaska, Alcoholic Beverage Control Board and the Serve Alaska Commission.

CORRECTIONS

The Department of Corrections is responsible for public safety through the incarceration and supervision of offenders. The department operates 13 correctional facilities and jails that provide secure incarceration and appropriate rehabilitation programs for felons and misdemeanants; community residential centers; supervision and case management of probationers and parolees in the community; and oversight of 15 small community jails. Also included in the department is the Alaska Board of Parole, a quasi-judicial board that makes all parole related decisions.

EDUCATION AND EARLY DEVELOPMENT

The Department of Education and Early Development is responsible for Alaska's system of public education. The State Board of Education and Early Development is the executive board of the department. The board develops educational policy, promulgates regulations governing education, appoints the commissioner of Education and Early Development with the Governor's approval, and is the channel of communication between state government and the public for educational matters. Education policies are determined by the board and administered by the commissioner through department divisions. Programs administered include: public school funding, teacher certification, and student assessment. The department also operates Mt. Edgecumbe High School, the state's secondary boarding school program. The department administers the state libraries, archives, museum services, provides grants to the arts community, and provides financial aid to postsecondary students through the Alaska Commission on Postsecondary Education.

ENVIRONMENTAL CONSERVATION

The Department of Environmental Conservation is the state's regulatory agency responsible for protection of the environment and protection of citizens from unsafe sanitary practices.

To accomplish these results, the department develops and enforces standards for protection of the environment and the abatement of pollution to air, land and water; and controls sanitary practices related to food, drinking water and solid waste. Services to communities include financial and technical assistance for upgrading water, sewage and solid waste, assistance meeting health-based standards for air quality, and positioning oil spill response equipment for preparedness and cleanup of oil and hazardous substance releases.

Through partnerships with Alaska citizens, businesses, and communities, the department works to safely manage and reduce pollution and hazards to the environment and human health.

FISH AND GAME

The Department of Fish and Game's mission is to protect, maintain, and improve the fish, game, and aquatic plant resources of the state, and manage their use and development in the best interest of the economy and well-being of the people of the state, consistent with the sustained yield principle in the Alaska Constitution. The commissioner and the department conduct management and research functions necessary to support this mission.

The Boards of Fisheries and Game are responsible for adopting regulations to conserve and develop the state's fish and wildlife resources. The Commercial Fisheries Entry Commission is a quasi-judicial agency that promotes resource conservation and sustained yield management by regulating entry into Alaska's commercial fisheries. The department also includes the Exxon Valdez Oil Spill Trustee Council, which oversees restoration of the injured ecosystem through the use of the \$900 million civil settlement.

HEALTH AND SOCIAL SERVICES

The Department of Health and Social Services' mission is to promote and protect the health and well-being of Alaskans. The department and its eight divisions focus on three priority areas: health and wellness across the lifespan; health care access, delivery and value; and safe and responsible individuals, families and communities. Within these three priority areas, the department's seven core services are to: protect and promote the health of Alaskans; provide quality of life in a safe living environment for Alaskans; manage health care coverage for Alaskans in need; facilitate access to affordable health care for Alaskans; strengthen Alaska families; protect vulnerable Alaskans; and to promote personal responsibility and accountable decisions by Alaskans. Each of its eight divisions shares a department-wide service philosophy of delivering the right care to the right person at the right time for the right price.

The department's primary functions include: administering Medicaid services for low-income and disabled Alaskans through the Division of Health Care Services; operation of the Alaska Veterans and Pioneers Homes; support services for seniors, providing support to disabled Alaskans and vulnerable adults through the Division of Senior and Disabilities Services; providing child protection and family preservation programs through the Office of Children's Services; operating youth detention facilities, including helping offenders transition back into their communities, through the Division of Juvenile Justice; and offering basic financial assistance, with an emphasis on self-sufficiency, to Alaskans in need through the Division of Public Assistance.

The department is committed to prevention of illness, health promotion and protection, including emergency preparedness, through the Division of Public Health; and the Division of Behavioral Health oversees community-based mental health and substance abuse services across the continuum of care (prevention, early intervention, treatment and recovery programs), including operation of the Alaska Psychiatric Institute.

LABOR AND WORKFORCE DEVELOPMENT

The Department of Labor and Workforce Development is responsible for advancing opportunities for employment and insuring that employers provide safe and legal working conditions. The department offers employment services, unemployment insurance, adult basic education, job training, workers' compensation adjudication and rehabilitation services, the Fishermen's and Second Injury Funds, and vocational rehabilitation for people with disabilities. In addition, the department enforces laws and regulations assuring occupational safety and health, performs mechanical inspections, and administers state wage and hour laws; serves as the labor relations agency for public employment in the state; and collects, analyzes, and releases labor market and population statistics. Also included in the department are the Alaska Workforce Investment Board, the Workers' Compensation Appeals Commission and the Alaska Vocational Technical Center.

LAW

The Department of Law is responsible for ensuring safe communities in part through the prosecution and conviction of criminal offenders. The department files both misdemeanor and felony charges; serves as legal advisor to grand juries; and represents the state in all phases of criminal trial and appellate proceedings. It provides legal assistance to state and local law enforcement, the

Department of Corrections and the Division of Juvenile Justice. It also works in partnership with executive, legislative, and judicial agencies by providing legal advice and representing the state in all actions in which it is a party. Such actions include protecting Alaska's children and youth by handling child abuse, neglect, and delinquency cases expeditiously; resolving questions of state versus federal control of natural resources; ensuring that the state receives its correct share of oil and gas taxes and royalties; collecting money owed to the state by businesses and individuals for child support, fines, and other unpaid obligations; and defending the state against claims for personal injury and other damages.

MILITARY AND VETERANS AFFAIRS

The Department of Military and Veterans Affairs is responsible for the Alaska Army and Air National Guard, the Division of Homeland Security and Emergency Management, the Office of Veterans Affairs, the Alaska Military Youth Academy, and the Alaska State Defense Force and Alaska Naval Militia. The commissioner serves as the Adjutant General of the State of Alaska and exercises day to day command over the Alaska National Guard comprised of approximately 4,000 Army and Air guardsmen. The strategic mission includes the responsibility for protecting lives and property from terrorism and all other hazards, and to provide rapid recovery from all disasters through the Division of Homeland Security and Emergency Management. The department is also responsible for managing the Alaska Military Youth Academy, which is an accredited special purpose school offering the ChalleNGe program to high school dropouts. The department also provides interactive activities to elementary school students in aviation, science, technology, engineering, math, and space exploration through the STARBASE program. Lastly, the department serves as an advocate on issues affecting Alaska's veteran population.

NATURAL RESOURCES

The Department of Natural Resources manages the majority of state-owned land, water and natural resources, except fish and game. These resources include approximately 100 million acres of uplands; 60 million acres of tidelands, shore lands, and submerged lands; and 40,000 miles of coastline. Strategic missions include: Responsibly develop Alaska's resources by making them available for maximum use and benefit consistent with the public interest; foster responsible commercial development and use of state land and natural resources consistent with the public interest, for long-term wealth and employment; provide access to state lands for public and private use, settlement, and recreation; ensure sufficient data acquisition and assessment of land and resources to foster responsible resource development; mitigate threat to the public from natural hazards by providing comprehensive fire protection services on state, private, and municipal lands, and through identifying significant geological hazards, and promoting and encouraging an agriculture industry within the state. The department also manages the oversight of the Alaska Pipeline Project, designed to advance construction of a natural gas pipeline from the North Slope to market.

Mr. Scot Arehart, Director
Division of Finance
State of Alaska
P.O. Box 110204
Juneau, AK 99811-0204

Dear Mr. Arehart:

The negotiation agreement approving the central service cost allocation plan for the fiscal year ending June 30, 2015, is attached. This agreement reflects an understanding reached between your organization and a member of my staff concerning the central service costs that may be included as indirect costs in your departments and agencies that have Federal grants and/or contracts. Please have the agreement signed by a duly authorized representative of your organization and return it to me BY EMAIL or FAX, retaining the copy for your files. We will reproduce and distribute the Agreement to the appropriate awarding organizations of the Federal government for their use.

Our review included the University of Alaska (UA) share of the interest costs incurred by the State to service the Higher Education Facility General Obligation Bonds. Based on the review, it was determined that the UA share of the interest costs was \$6,084,815 for the fiscal year ending June 30, 2013. However, during the review, we were informed by UA representatives that an adjustment is made to the approved interest amount in order to identify the actual interest cost for a given fiscal year. Since UA includes the interest cost in the facilities and administrative rate proposal, we recommend the Office of Naval Research (cognizant Federal agency) review the adjustment for allowability.

A cost allocation plan proposal together with supporting information are required to substantiate your claim for costs under grants and contracts awarded by the Federal government. Thus, your next proposal based on actual costs for your fiscal year ending 06/30/2014, is due in our office by 12/31/14.

Sincerely,

Arif Karim, Director
Cost Allocation Services

A. LIMITATIONS: (1) Charges resulting from this Agreement are subject to any statutory or administrative limitations and apply to a given grant, contract or other agreement only to the extent that funds are available. (2) Such charges represent costs incurred by the State/locality which are legal obligations of the State/locality and are allowable under OMB Circular A-87. (5) The information provided by the State/locality which was used to establish this Agreement is not later found to be materially incomplete or inaccurate.

B. ACCOUNTING CHANGES: This Agreement is based on the accounting system purported by the State/locality to be in effect during the Agreement period. Adjustments for variances between billed costs and the actual allowable costs of providing the services, as defined by OMB Circular A-87, will be made in accordance with procedures agreed to between the State/locality and the Cognizant Agency.

E. USE BY OTHER FEDERAL AGENCIES: This Agreement was executed in accordance with the authority in OMB Circular A-87, and should be applied to grants, contracts and other agreements covered by that Circular, subject to any limitations in Paragraph A above. APPENDIX G
FY2015 TAX COLLECTION ACTIVITY

**STATE EMPLOYMENT SECURITY AGENCY
TAX COLLECTION ACTIVITY
DESCRIPTION OF UNIT OPERATION**

The Employment Security Tax Unit is responsible for the collection of taxes from Alaska employers for Unemployment Insurance (UI) Tax and two state programs: the State Employment and Training Program (STEP) and the Alaska Technical and Vocational Education Program (TVEP). The Tax Unit incurs costs directly related to UI and costs that benefit both UI and state programs. Costs directly related to UI are recorded directly into a cost center established for UI on the state accounting system (AKSAS). Costs benefiting both UI and state programs are allocated or split between UI and state programs on the ratio established by U.S. Department of Labor, currently 81% to UI and 19% to state programs.

Collection activities and processes of the Tax Unit were reviewed by the U.S. Department of Labor, Division of Cost Determination, soon after STEP began. After the review, a shared cost agreement was reached between the state and federal partners that the state portion of shared costs would be 19%. This agreement has been in place since 1994. On January 25, 2002, the Alaska Department of Labor and Workforce Development requested that the agreement to split common tax collection costs 81% UI and 19% state be reconfirmed. The U.S. Department of Labor, Employment and Training Administration, confirmed that the agreement is still valid and in effect.

The total Tax Unit cost benefitting both UI and state programs for FY2015 was \$3,497,503. Of that amount, \$2,832,977 or 81% was paid with UI Administrative funds, \$332,263 or 9.5% was paid with STEP funds and \$332,263 or 9.5% was paid with TVEP funds.

This is to certify that we collect other taxes that were used to fund non-UI programs. As a result of the execution of our approved shared tax cost agreement, \$664,526 was paid from non-federal sources for fiscal year ending June 30, 2015.

***FY2015 UNEMPLOYMENT INSURANCE PENALTIES AND INTEREST
ACTIVITY***

STATE UNEMPLOYMENT INSURANCE AGENCY PENALTIES AND INTEREST ACTIVITY DESCRIPTION OF UNIT OPERATION

The Unemployment Insurance Benefit Payment Control Unit (BPC) is responsible for auditing Unemployment Insurance (UI) claims, detecting fraud, declaring benefit overpayments, collecting overpayments and assessing penalties on fraudulent UI claims. The State of Alaska assesses administrative penalties, but not interest, when benefit overpayments from fraud occurs (AS 23.20.390).

In order to isolate the costs of assessing and collecting penalties, the department first had to identify the costs associated with fraud. The department looked at the last two state fiscal years of cases (FY2014 and FY2015). The total cases for FY2014 and FY2015 was 23,390 with 3,625 attributable to fraud cases.

To isolate further the costs of assessing and collecting penalties, the department analyzed the way investigators manage their cases to determine the methodology used in allocating these costs. Penalties are assessed when specific data elements are entered in the Benefit Audit, Reporting and Tracking System (BARTS). The process of penalty assessment and generating collection letters is automated with the interface between the BARTS and UI database. A daily batch run identifies and calculates the penalties for each individual claim and rolls the data in the UI database. Investigators use 31 screens when they manage fraud cases and 6 of those screens (19.35%) have data elements that must be entered in order for penalties to be assessed.

The total cost incurred by the Benefit Payment Control (BPC) Unit in FY2015 was \$1,831,766 with \$291,776 attributable to fraud. Out of the \$291,776 attributable to fraud, 19.35% or \$56,473 were the costs associated with penalties.

A change in statutory language related to the fraud penalty came into effect in FY2014. The change in the statute states that penalties received must be deposited in the UI Trust fund upon receipt and 70% of the fraud penalties are then transferred to the state general fund. Therefore, from \$56,473 costs associated with penalties in FY2015, \$39,531 or 70% was attributable to the state general fund.

AVCP administers TANF programs in Bethel region native communities in cooperation with U.S. DHHS.
 - Other State Agencies - Any other state agencies authorized in SSA to receive data maintained on IEVS.
 - Social Security Administration (SSA) - Electronic data access is provided "online" to a limited number of SSA employees located within Alaska's borders.
 - ❑ Copies of written agreements with requesting departments and agencies utilizing the system are available upon request.
-

- ❑ The department does not recover any costs from requesting agencies for costs associated with the data acquisition, data entry, or maintenance and operation of IEVS. IEVS is maintained on the Department of Administration's (DOA) mainframe computer system. Data processing costs associated with online access and mainframe acquisition of data sets is billed directly to agencies by DOA.

The department has virtually eliminated costs for provision of IEVS data to authorized agencies by allowing agencies either online access through DOA or by the provision of data sets available on the DOA mainframe computer system. Agencies with online access are linked to IEVS through authorized workstations. Agencies without online access may acquire data through connection with DOA's mainframe. A mainframe computer program automatically extracts data records from the department's database and places data sets in an accessible file automatically and on a scheduled routine. In this manner, agencies utilizing IEVS recover the data and incur all costs associated with acquisition of the data from IEVS.

- ❑ The only agency that the department has a separate agreement with for tape matching services is the Alaska Department of Revenue (DOR), Tax Division. States are required to share wage and unemployment compensation records with the U.S. Internal Revenue Service (IRS) for the purposes of the Federal Unemployment Tax Act. An agreement is not required. IRS issues a summons for records.

The department's agreement with DOR is to supply wage data for the purpose of verifying the Alaska payroll reported on the apportionment schedule of the Alaska Corporation Net Income Tax Returns required by Alaska Statute 43.20. Data sharing is authorized by AS 23.20.110(a).

- ❑ As previously stated, the department has recovered no funds from other agencies related to IEVS.
