

SIDES: One great solution.

Two ways to connect.

Whether your business has a limited number of claims or handles thousands of requests each year, **SIDES makes responding to claims easier, faster, and more efficient for your business.**

1

E-RESPONSE

An ideal solution for small businesses and employers with a **limited number of insurance claims**, E-Response is a secure website used to enter UI claims information with no special software required.

- Incurs no cost for users.
- Needs no special software special.
- Transmits responses accurately and instantly
- Exchanges documents digitally and securely.

2

SYSTEM INTEGRATION

A more advanced tool for employers, System Integration is a customizable tool that integrates SIDES into current systems to automate a **large volume of claims responses** and reduce manual data entry.

- Integrates directly into your software.
- Streamlines requests.
- Creates customizable workflows.
- Exchanges data seamlessly.

BENEFITS OF USING SIDES

Reduce paperwork and improve accuracy.

Decrease errors that result from manual data entry.

Save money by reducing printing and mailing costs.

Prevent overpayments and keep tax rates as low as possible.

Respond quickly to claim notices and minimize processing time.

Eliminate administrative stress.

SIDES E-Response and SIDES System Integration use a nationally standardized electronic format to protect employers and claimants. Advanced security protocols protect sensitive information and prevent potential fraud and data breaches.

EFFICIENT

ACCURATE

SECURE

COST-EFFECTIVE

Let SIDES handle the details so you can focus on business.
